

The Northern Tier Map of Yellowstone

The map is 36" x 14" and the actual map area is 36" x 12" inches.

The map covers the area from Mammoth to Baronnette Peak. If you can see it from the road, the map covers it.

This topographical map has the road in black and the pertinent pullouts and points of interest in red. It is easy to read. There is a numbered reference guide on the map for the places and pullouts. The clear topo lines make it easy to find locations along the road.

The map is suitable for framing. It comes in three versions:

1. A paper map which is not water resistant but is great for indoor use or for use in a car.
2. A water resistant and tear resistant durable paper that has colorfast print. You can roll it up easily. Great for field work or a back pack.
3. A laminated paper map that is waterproof and tear-proof. For those of you that want to stand in the rain and play cartographer.

100% of the profits from the sales of these maps will be donated to Yellowstone Forever's Yellowstone Wolf Project.

This is a great tool for anyone interested in following the updates on Yellowstone Reports (www.yellowstonereports.com) and makes a wonderful gift, as well.

See the attached form for ordering. **NOTE: We can't accept orders from Canada or overseas. For those wanting a map and living in Canada or overseas, please email me for details on payment and postal charges at pmwm12@gmail.com**

Thanks for your interest -
Pete Murray

PS: We are now over \$10,000 in contributions as of February 2017. Thank you all very much.
